

The Abbott Architect ci 16200

Chemistry Analyzer

Stony Brook Eastern Long Island Hospital delivers high quality, compassionate and individualized care to our patients. Your gift will help us to acquire the new Abbott Architect ci 16200 Chemistry Analyzer, that is one platform with multiple benefits.

This new integrated system meets the complex needs of the larger laboratory by providing:

- ◆ Clinical chemistry and immunoassay testing on a single platform.
- ◆ High volume, single platform for complex workloads and testing handled with ease.
- ◆ STAT processing over 1,400 tests per hour.

The Abbott Architect ci 16200.....\$700,000
