EMERGENCY MEDICINE

Whether you need urgent emergency care or lifesaving medicine, the Stony Brook Eastern Long Island Hospital team is here for you.

For most patients, our Emergency Department has one of the shortest wait times in Suffolk County. Specialty-trained staff are available 365 days of the year to treat a full spectrum of patient illnesses — from minor cuts to traumatic injuries, and illnesses from the common cold to heart and stroke incidents. Every person who comes to the ED is given appropriate treatment regardless of their ability to pay. Our credentialed team of physicians, physician assistants, nurses, and staff exceed New York State standards and are committed to treating your emergency. All SBELIH ED nurses are Trauma Nursing Core Course (TNCC) certified.

- Accessible by land, sea, and air with a dedicated heliport and emergency dock
- All residency-trained Board-Certified Emergency Medicine physicians
- Advanced cardiac life support certified nurses
- Credentialed team, exceeding New York State standards
- Arctic Sun Temperature Management System

Chest pain? Don't wait, call 9-1-1. Let the expert emergency team at SBELIH evaluate you, rather than risk losing valuable treatment time. Stony Brook Medicine is helping to improve emergency care on the North Fork, with two first responder “fly cars” staffed by NYS-trained and certified paramedics, for the highest possible level of pre-hospital emergency care— 24 hours a day, 7 days a week.

EAST END SPINE AND SPORTS MEDICINE

East End Spine and Sports Medicine is led by interventional physiatrist, Ashton Stanton MD.

The practice provides comprehensive nonsurgical spine and musculoskeletal care in Greenport, Mattituck and Hampton Bays. In collaboration with orthopedic colleagues at North Fork Orthopaedics and Stony Brook Medicine, we have easy access to high-quality specialists and seamless collaboration on our integrated electronic patient record.

"We believe in the concept of precision medicine, which means the right treatment, for the right patient, at the right time," says Dr. Stanton. Our approach is to be aggressive with diagnosis and conservative with treatment. Our goal is to return patients to their highest level of performance at work, sports, or recreational exercise. We are pleased to be part of The Center for Musculoskeletal Health on the East End, serving all of your orthopedic needs.

Our physician primarily specializes in nonsurgical spine and musculoskeletal conditions:

- Acute and chronic conditions of the spine, low back, and neck with or without radiating pain to the upper or lower extremities
- Pain involving the hip, knee, shoulder or elbow
- Muscle strains/tears, tendonitis

JOAN TRIPP

"My experience at SBELIH was excellent. The staff was kind, the hospital easy to navigate, and even a short delay came with a thoughtful apology. The MRI and other equipment were impressive, and the lab and pharmacy were efficient and patient-focused. SBELIH truly delivers compassionate, quality care."

MEDICAL-SURGICAL SERVICES

At SBELIH, approximately 85% of all surgeries are performed in our Advanced Ambulatory Care Center. This modern facility enables us to perform efficient, minimally invasive procedures with faster recovery times and fewer complications.

Patients receive detailed pre-operative education to ensure they fully understand their surgery, with dedicated time to address any questions from patients and their families.

Our surgical team includes:

- Dedicated perioperative nursing staff
- Certified operating room nurses
- Certified registered nurse anesthetists
- Certified Surgical Technologists
- Board-certified surgeons and anesthesiologists

In addition to general surgery, the ambulatory center supports selected procedures in orthopedics, gastroenterology, ophthalmology, and reconstructive and plastic surgery.

General Surgery

Our general surgery team specializes in minimally invasive procedures that promote faster healing and reduced post-operative discomfort. We utilize advanced laparoscopic technology, including the Olympus 4K Ultra High-Definition Surgical Camera System, providing superior visualization and precision. SBELIH was the first hospital on Long Island to adopt this advanced system.

We coordinate pathology, histology, cytology, microbiology, and diagnostic services to ensure comprehensive and accurate surgical care.

Common Procedures and Services Include:

- Laparoscopic and open hernia repair (inguinal, umbilical, ventral, incisional)
- Gallbladder removal via minimally invasive surgery
- Excision of soft tissue masses (lipomas, epidermal inclusion cysts)
- Comprehensive wound care for acute and chronic wounds

SHERRY SHAW

"Just want to take this moment to express my deep appreciation for the wonderful care I received at SBELIH. Having arrived through emergency, the entire staff did everything possible to make an anxious situation as relaxing and painless as possible. My medical team was professional, skilled, and most sympathetic. The care during my stay was extraordinary; inclusive of nurses, aides, and all support personnel. It felt as though I was in a 'boutique' hospital with my first-rate surgeon, Dr Luke Swaszek, visiting several times per day. Point being, never question the competency of a small institution!"

PHYSICAL THERAPY & FITNESS

Get physical! Maintain optimum health and wellness by staying active at every stage of your life.

Regular physical activity offers a multitude of benefits across various aspects of health and well-being. It enhances mood, reduces stress, and increases energy levels, while also supporting brain health, reducing depression risk, and enhancing memory. Moreover, it strengthens bones, muscles, and joints, lowering the risk of osteoporosis, and improves balance, coordination, and flexibility. Physical activity aids in weight management, boosts stamina and endurance, and contributes to overall body flexibility. Importantly, it plays a crucial role in preventing and managing noncommunicable diseases such as heart disease, stroke, diabetes, and certain cancers, while also assisting in the management of chronic health conditions and disabilities.

Physical Therapy & Fitness at the Gladys Brooks Center in Southold offers outpatient physical therapy and fitness training. State-of-the-art equipment is extremely popular with community members of every age – from students to senior citizens. Our Southold facility is a SilverSneakers participating location.

Hospital-Based Outpatient Physical Therapy

- Offers a continuum of care from inpatient to outpatient
- Pain management and rehabilitation
- Post-surgical rehabilitation
- Otago program for balance and fall prevention
- Orthopaedic and neurological rehabilitation

Fitness Center

- Convenient Hours:

INPATIENT BEHAVIORAL HEALTH SERVICES

Rehabilitation, detoxification, and psychiatry: integrated treatment that's advancing recovery.

At SBELIH, we have one of the most highly regarded inpatient behavioral health programs in Suffolk County. If you, or someone you love, are considering treatment for substance use or mental health challenges, we can help. By combining the highest caliber medicine, psychology and behavioral therapy, our highly trained board-certified physicians, nurses, alcoholism and substance abuse counselors, social workers, creative arts therapists, and dietitians are customizing solutions for each patient. This approach is at the forefront of modern treatment for substance use disorders. For many, entering Quannacut (the Native American word for rainbow – signifying hope) is the beginning of a new life. We embrace this decision and congratulate such courage.

Our inpatient programs provide comprehensive care, including detoxification, rehabilitation, and psychiatric services in a healing and therapeutic environment. All programs offer medication for opiate use disorders and medication for alcohol use disorders, with services accredited by the Joint Commission of Accreditation and licensed by the New York State Office of Mental Health and/or New York State Office of Addiction Services and Services.

Quannacut Rehabilitation: Provides comprehensive treatment incorporating evidence-based education practices, mindfulness, life skills, medication management, group and individual counseling, and discharge planning in a supportive environment.

Quannacut Detoxification: Provides safe medical detoxification from substances with comprehensive treatment, discharge planning and medication management.

Inpatient Psychiatry: Provides comprehensive care in a healing and therapeutic environment, including medication management, group and individual therapy to assist patients in their stabilization process.

Admission for Inpatient Services

- **Intake:** (631) 477-8877. Intake assessments completed Monday-Friday, 8am-4pm
- **Rehabilitation:** (631) 477-5325
- **Detoxification:** (631) 477-5234. Detoxification assessments are available 24 hours per day, 7 days per week through the Emergency Department
- **Psychiatry:** (631) 477-5265

NORTH FORK ORTHOPAEDIC SURGERY AND SPORTS MEDICINE

North Fork Orthopaedic and Sports Medicine is a division of Stony Brook Medicine. Dr. Roe is subspecialty trained in complex knee ligament reconstruction, cartilage preservation and transplant, and comprehensive shoulder surgery.

Our goal is to reduce your pain and improve your performance and activity level. Whether you are an active athlete or experiencing chronic shoulder pain due to arthritis, our orthopedic sports medicine surgeon is here to help.

Surgery, injections, bracing, physical therapy, medication and education are all tools available to help improve your condition. We are pleased to be part of the Center for Musculoskeletal Health on the East End, serving your orthopedic needs.

Our physician specializes in:

- Arthroscopic and minimally invasive surgery
- Shoulder replacement
- Complex knee and shoulder ligament repair/reconstruction
- Cartilage and meniscus repair, transplant, restoration/replacement
- Rotator cuff repair
- Anatomic and reverse shoulder replacements
- Shoulder dislocations and instability
- Minimally invasive Achilles tendon repair
- Tendonitis, tendinopathy, tendon ruptures
- Nonoperative and operative fracture care
- Hyaluronic acid "gel" injections
- Steroid injections
- Splinting, casting and bracing

WOUND CARE

The comprehensive Wound Care Center at Stony Brook Eastern Long Island Hospital (SBELIH) has expanded outpatient wound care services to the North Fork and Shelter Island.

This new care option is for patients with acute wound injuries as well as those with chronic or slow-healing wounds. The center offers services previously requiring travel west of Riverhead. The Wound Care Center offers new, innovative, cutting-edge wound care options. The center provides access to state-of-the-art equipment and new wound-healing technology, right here on the North Fork.

The Wound Care Center utilizes proven best practices to treat:

- Acute injury follow-up care and evaluation for potential healing issues
- Diabetic foot wounds
- Bone infections (osteomyelitis)
- Wounds caused by poor circulation, including ulcers and sores on all extremities
- Soft tissue injuries resulting from radiation treatment or traumatic wounds
- Wounds from pressure injuries
- Non-healing or slow healing post-surgical wounds and complication management
- Compromised surgical flaps and grafts
- Skin grafts on wounds
- Wound vac systems

QUANNACUT OUTPATIENT SERVICES

Modern treatment for substance use disorder.

Addiction is real. So is recovery. Quannacut Outpatient Services is a behavioral health facility that addresses patients' immediate and long-term substance use issues, as well as the impact on their support system, family members and significant others. Centrally located in Riverhead, the facility provides highly individualized programs for patients with diverse needs across a wide variety of treatment disciplines so that patients can receive all outpatient care in one location. We also have three recovery homes on the East End.

Outpatient Services Offered

Telehealth Services: Convenient virtual appointments available for ongoing support and therapy.

Co-occurring Services: Specialized treatment for individuals facing both substance use and mental health challenges using a psychotherapeutic, medical approach.

Medication for Addiction Treatment: Evidence-based medications provided to support recovery from substance use disorders, including Suboxone, Vivitrol, Naltrexone and Antabuse.

Psychiatric Evaluations: Comprehensive assessments and medication management services by experienced psychiatrists.

Primary Care Medical Services: Addressing physical health needs alongside behavioral health concerns, including walk-in evaluations.

NYS Department of Motor Vehicle Treatment Site: Providing necessary evaluations and treatments for driver's license reinstatement.

DIAGNOSTIC SERVICES

Stony Brook Eastern Long Island Hospital (SBELIH) provides the highest quality imaging and diagnostic accuracy on the North Fork.

Home to advanced diagnostic imaging services, with a new Siemens MAGNETOM Altea 1.5T with BioMatrix Magnetic Resonance Imaging (MRI) system, state-of-the-art bone mineral densitometry screening system, and the DRX-Excel which combines fluoroscope and general radiology exams. SBELIH is also home to 3D Tomosynthesis Mammography to provide earlier cancer detection, fewer false positives, and fewer follow-up tests. Our tomosynthesis system is also equipped with a "soft touch" pad for more comfortable mammograms. We have an accreditation from the American College of Radiology in MRI, CT, Ultrasound and Mammography.

Radiology Services:

- Bone Mineral Densitometry (BMD)
- 3D Tomosynthesis Mammography
- Ultrasound/Sonography
- 128-Slice Computerized Axial Tomography (CT) Scanner
- 1.5 Tesla Magnetic Resonance Imaging (MRI)
- MRI with Sedation
- Digital Radiography (X-ray)

Laboratory Services:

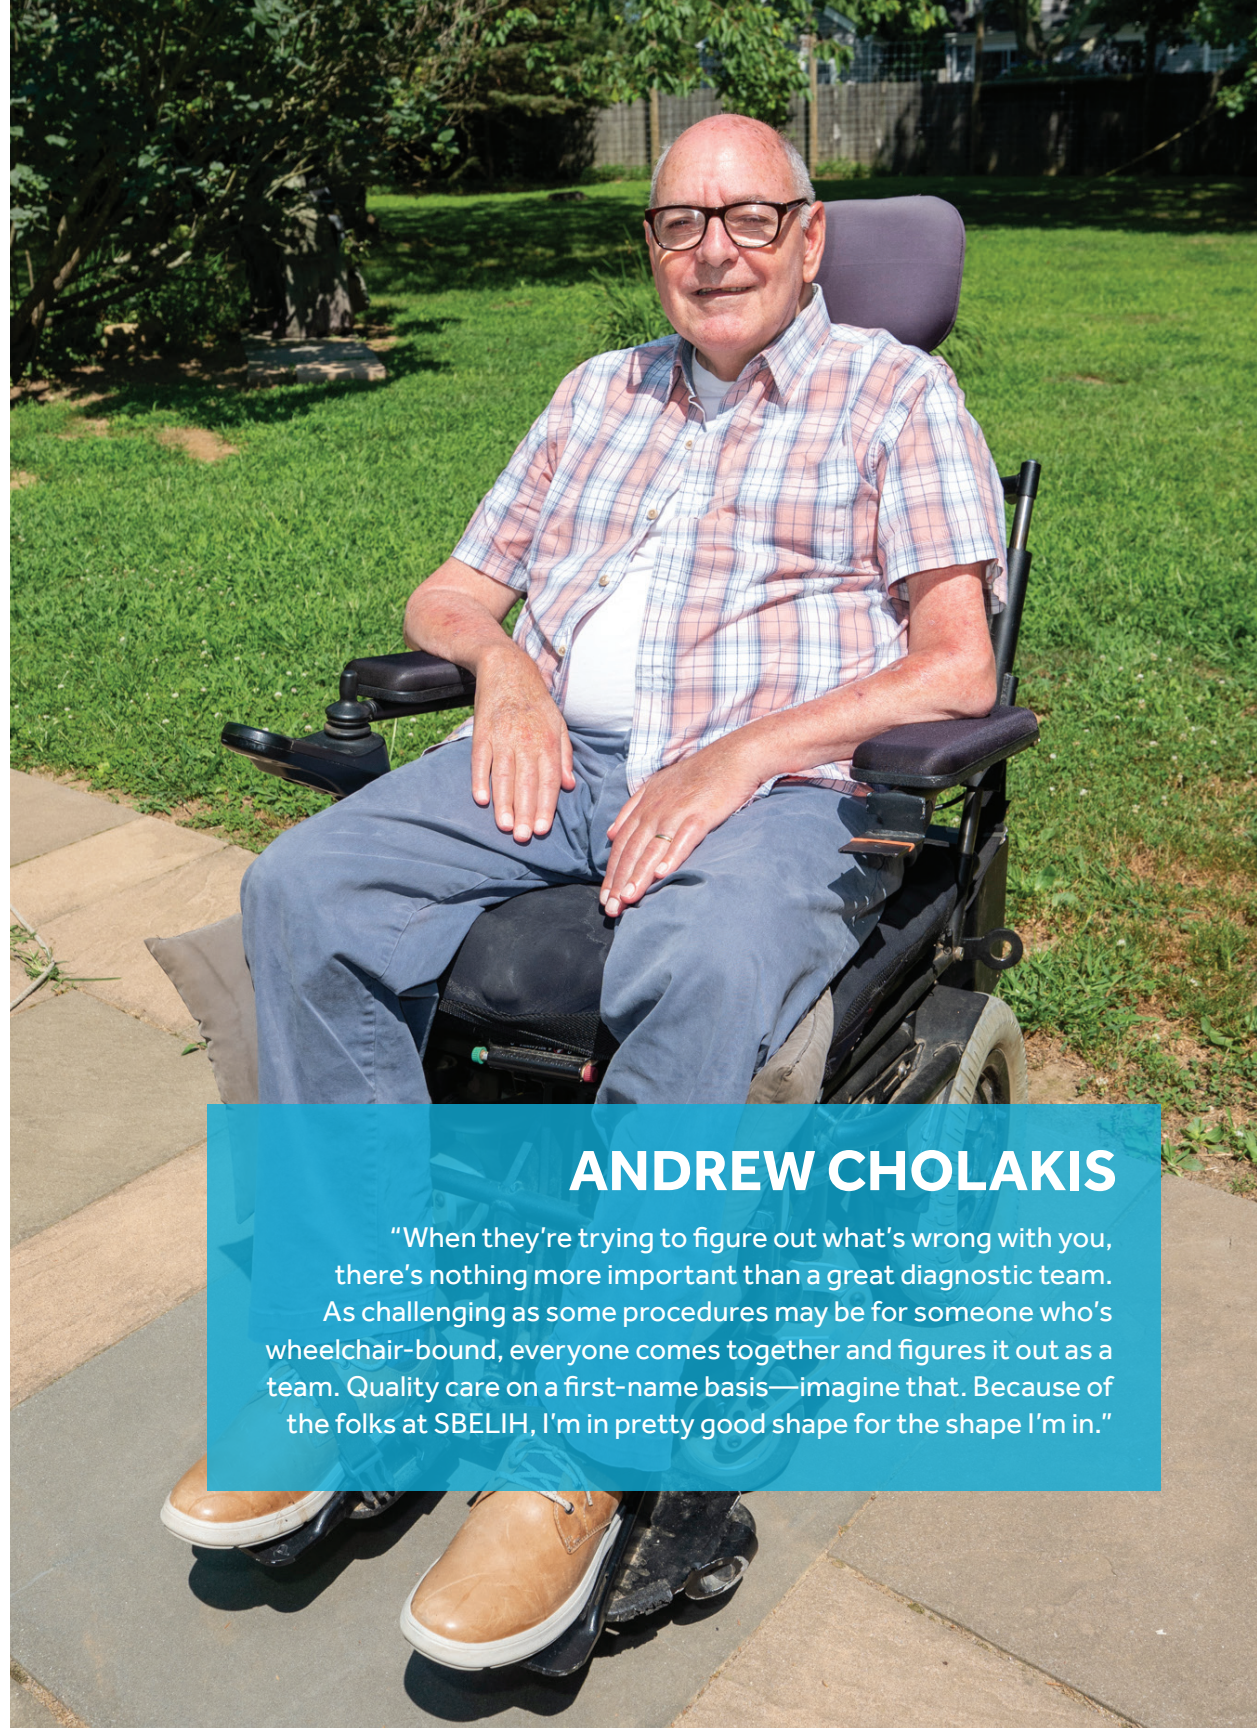

Outpatient testing is available Monday to Friday, 7:30 am to 9:30 am. Walk-ins are welcome until 4 pm. Limited hours on Saturday and Sunday. Please contact the Laboratory for availability.

- General Chemistry Hematology:
 - Electrolyte levels
 - Glucose levels
 - Liver enzymes
 - Cardiac markers
 - Thyroid testing
 - Hematology (including CBC panel)
 - Tick-borne disease panel
- Influenza Testing
- COVID-19 Testing
- Microbiology Testing

SOUTHOLD FAMILY MEDICINE

At Southold Family Medicine, we specialize in family, adolescent, and addiction medicine.

Our network of community-based physicians works closely with the experts at Stony Brook Medicine, affiliate community hospitals, and other medical professionals to enhance the coordination of the medical care we provide to every patient in the communities we all serve. Primary care services include physical exams, vaccinations, same-day sick visits, and referrals for laboratory services, imaging, and specialists. Southold Family Medicine focuses on health and wellness, incorporating lifestyle modifications to manage and prevent chronic conditions, while using medications when necessary.

Southold Family Medicine provides addiction medicine services for a full range of substance use disorders. We offer inpatient treatment for detox and rehab as necessary through our affiliation with Quannacut, part of Stony Brook Eastern Long Island Hospital in Greenport. We treat patients with substance use disorders and prescribe medications for alcohol use and opiate use disorders at our Southold office, as well as at our Quannacut Outpatient Services facility in Riverhead.

THE CENTER FOR WELL-BEING AT PECONIC LANDING

Open to the public, The Center for Well-Being provides expert and compassionate care to all residents of the North Fork and Shelter Island.

The beautiful 1,200-square-foot center, located at Peconic Landing in Greenport, offers world-class care for patients with general medical, rheumatology, and urology concerns.

The Center for Well-Being, which broke ground in 2021 and opened in 2022, is a huge benefit to the community – offering on-site primary, rheumatological, urology, and podiatry care for Peconic Landing members and the general public by specialists from Stony Brook Eastern Long Island Hospital.

And it's just the start. There are plans for more specialties at The Center for Well-Being, all adding up to an incredible healthcare offering on the East End.
